

**What are they doing
when we're not looking?**

Jelly Jar
photography

**On picture day,
they're giggling,
laughing
and clowning around...**

These moments just fly by-

**Don't worry,
we got it.**

For Directors

Customer Service

The Jelly Jar customer service team includes highly qualified individuals that will guide you and your families thru the photography process. Our teams are conveniently located at the production plant so they can be prepared to problem solve on the spot.

Photography Staff

Jelly Jar employs only the best youth portrait photographers available. Many of those on our staff have 10+ years experience and most are full time employees of the company. Each photographer has complete liability insurance and is required to pass a rigorous background check. Most importantly our staff knows how to have fun! Each team will make your picture day experience the best it can possibly be. Your kids will never look so good!

Internet Child Safety Program

Jelly Jar Photography is proud to provide your school with the online Click and Safe program and 2 Safety I.D. Cards FREE to help your parents feel more secure. Every child in the school will receive a card - even without purchasing a package! Designed to fit in your wallet or billfold, the Safety I.D. Card contains the photo and description that law enforcement needs for a rapid response. In an emergency, parents can access and print posters containing the image of their child by logging on to jellyjarphotography.com

Our History

For more than 3 decades the BNL family has been a proud contributor to the cherished tradition of “school pictures”. The BNL family is comprised of Jelly Jar Photography, BNL School Pictures & BNL Youth Sports. Studies have shown that no other product holds more sentimental value for a family than a photograph, and a school portrait from Jelly Jar is certainly no exception. We recognize how important these years are to a family, and take very seriously the responsibility of creating that special family keepsake.

To insure that families receive the quality photograph they deserve, we spend a lot time and effort in the recruiting, retention and training of our photographers. Unlike the industry standard of hiring new “shooters” every season, we pride ourselves on the fact that many of our photographer associates have been with us an average of 10+ years. In fact, many of our photographers are proud of the fact that they have photographed many of the children from kindergarten thru their 8th grade graduation. In addition to our extraordinary photo team we own and operate a state of the art photo processing facility located in Marlboro, NJ. This allows us to offer you unique products, quality and service in a timely manner.

We are devoted to providing superior services and will continue to make photography fun - capturing your students in their best moments! We hope you will consider joining the BNL family so that we have the opportunity to show you what we can do for you and your school!

Our services include:

- Nursery School Photography
- Elementary and Middle School Photography
- Youth Sports Photography
- Panorama Photography
- School Image & Data Management software solutions
- Child Safety Card Program
